The Canvas: Premium Residential Plots

Focus on Effortless Ownership

Uttarakhand law restricts non-local buyers to a maximum of 2,700 Sq. Ft. of residential land. Our freehold plots are intentionally sized between 2,300 and 2,650 Sq. Ft. to seamlessly align with these state regulations from day one. We remove the typical groundwork hassle by delivering pre-developed sites with plug-and-play water, power, and road infrastructure already in place. Build your hillside cottage with the permanent advantage of 24/7 estate security and dedicated private parking.
